**Re: R.D. Holder Oil Co. Inc. - Lancaster Bulk Plant
NPDES Permit 4IN00169/ OH0121452
Reconnaissance Inspection
Fairfield County**

Dear Mr. Holder:

On March 6, 2012, a Reconnaissance Inspection was conducted at the RD Holder Oil Co. Inc. - Lancaster Bulk Plant. Present for the inspection were Dwight Kent of R.D. Holder Co. and myself of the Ohio EPA, Central District Office, Division of Surface Water.

The purpose of the inspection was to evaluate compliance with the terms and conditions of your NPDES permit and to evaluate the operation and maintenance of the plant. The following items were discussed during the inspection:

- Discharges from the holding pond are very infrequent (up to 2 times a year) and result only when the facility staff opens the overflow pipe from the pond. Samples are then obtained when the discharge is occurring.
- The facility must submit the annual report documenting priority pollutant scan monitoring by March 15, 2012.
- The August 2011, eDMR was not submitted in a timely fashion. The report was submitted on March 6, 2012 with no discharge reported. No further action is required by the facility to address this oversight.
- The facility shall refrain from using the AL code to indicate no discharge during the month. Instead please use the "No Discharge" check box at the top of the eDMR computer form.

If you have any questions or comments concerning the enclosed inspection report, please contact me at (614) 728-3854 or e-mail at paul.vandermeer@epa.ohio.gov.

Sincerely,

Paul L. Vandermeer
