Dear Mr. Hadsell:

On December 28, 2011, I conducted an inspection of your facility. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111. As a result of the inspection, I have the following comment:

Your facility appeared to be in compliance with the General Industrial Storm Water Permit that has been issued to you by the Ohio EPA. Please continue to implement permit requirements in the future.

No salt was onsite during this inspection. As a reminder, salt piles must be covered unless you are loading or unloading the pile. The working face can be exposed for the duration of the load in or load out. Please maximize salt pile coverage so ground water and surface water protection can be maintained.

If you have any questions, please contact me at (740) 380-5277.

Sincerely,

Aaron Wolfe
Storm Water Coordinator
Division of Surface Water
