Dear Mr. Bazler:

On December 30, 2011, I conducted an inspection of your facility. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111. As a result of the inspection, I have the following comment:

Please continue to ensure that no oil is spilled in your used oil pumping area outside near the back of the building. If spills occur you must document the spill, clean the area and dispose of the contaminated soil properly.

If you have any questions, please contact me at (740) 380-5277.

Sincerely,

Aaron Wolfe  
Storm Water Coordinator  
Division of Surface Water
