**Re: Construction Storm Water Inspection of Transmission Line Installation from
Mount Vernon to the Utica Area in Licking County: Permit: 4GC03611*AG**

Dear Mr. Rinker:

This letter is written regarding the storm water inspection I conducted of the transmission line from Mount Vernon to the Utica area in Licking County on April 5, 2012. The Agency understands these construction activities are currently covered under the General Storm Water Permit Associated with Construction Activities.

During the inspection, I evaluated the coordinates provided in the application for the starting and ending points of the proposed transmission line. I was unable to locate any areas of active construction. As a result, I am formally requesting additional information regarding the construction sequence and access points for inspection.

If you have any question regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844 or email at harry.kallipolitis@epa.state.oh.us. In addition, please forward the requested information within seven days of receipt (email preferred).

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
Division of Surface Water
