**Re: Construction Storm Water Inspection at Port Columbus Golf Course
April 18, 2012. Permit Number: 4GC03480*AG**

Dear Mr. Powell:

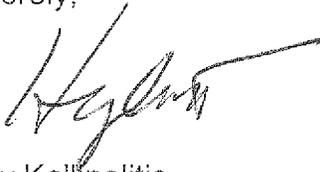

This letter is written regarding the storm water inspection I conducted of the construction activities associated with Port Columbus Golf Course on April 18, 2012. The Agency understands these construction activities are currently covered under the General Storm Water Permit Associated with Construction Activities. Based on the site inspection and the General Storm Water Permit, the following items must be addressed:

Sediment and Erosion Controls:

- At the request of the Permittee, I evaluated the request to fill a sediment pond on site for purposes of finalizing construction. I approved the request with the condition that alternate controls are implemented to minimize soil loss. In addition, I was informed the site would be completed, seeded and mulched by mid June of 2012.

If you have any questions regarding this letter or the inspection, please do not hesitate to call me at our Central District Office at (614) 728-3844 or email at harry.kallipolitis@epa.state.oh.us.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
