Dear Sir/Madam:

This will acknowledge our May 15, 2012, compliance inspection at your Bryan facility. This facility is located at 721 East Edgerton Street, Bryan, Ohio. This inspection was conducted to evaluate compliance with your facility's National Pollutant Discharge Elimination System (NPDES) permit No. 2IC00039 (OH0034380).

At the time of the inspection, this facility was closed for business and the building remained unoccupied. Please note that your facility's NPDES permit expired on January 31, 2012. To continue to be covered under this existing NPDES permit, the permit renewal application must be submitted to our office within 14 days.

Please note that even though the building is unoccupied, you must still submit discharge monitoring reports (DMR) per your expired NPDES permit. If no discharge occurs during the month, click the no discharge box in the eDMR system and submit.

A completed inspection report is included for your review. If you have any questions or comments, please call me at 419-373-3021.

Yours truly,

Jason Ko
