Mr. Tim Rush
FedEx Freight, Inc.
377 Gateway Drive
Chillicothe, Ohio 45601

Dear Mr. Rush:

On June 8, 2012 I conducted inspections of your facility. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111. As a result of the inspections, I have the following comments:

During the inspection there was a small diesel leak found on site. In Part **2.1.2.3** of the Industrial Storm Water Permit, it states:

You shall regularly inspect, test, maintain, and repair all industrial equipment and systems to avoid situations that may result in leaks, spills, and other releases of pollutants in storm water discharged to receiving waters. You shall maintain all control measures that are used to achieve the control measures/best management practices (BMPs) and numeric effluent limits required by this permit in effective operating condition. Nonstructural control measures shall also be diligently maintained (e.g., spill response supplies available, personnel appropriately trained). If you find that your control measures need to be replaced or repaired, you shall make the necessary repairs or modifications as expeditiously as practicable.

Your large refueling tank was leaking at the time of the inspection. Correct this leak immediately and submit documentation of this action to this office.

Within fourteen (14) days of receipt of this letter, submit to me at this office a written notification as to actions taken or proposed to eliminate violations. Your response must include the dates, either actual or proposed, for the completion of the actions. Be advised that the violations at your site subject you to significant monetary penalties that can be assessed daily as provided by ORC 6111.09.

If you have any questions, please contact me at (740) 380-5277.

Sincerely,

A handwritten signature in black ink, appearing to read 'Aaron Wolfe', with a stylized flourish at the end.

Aaron Wolfe
Storm Water Coordinator
