Dear Mr. Swingle:

On June 6, 2012, I conducted an inspection of your facility. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111. As a result of the inspection, I have the following comments:

I recommend that you provide secondary containment around any fuel or oil tank to protect against any leaks or spills contaminating the soil or nearby waterways. Update your storm water pollution prevention plan to reflect the requirements in the new industrial storm water permit.

If you have any questions, please contact me at (740) 380-5277.

Sincerely,

Aaron Wolfe  
Storm Water Coordinator  
Division of Surface Water
