Re: Misty Meadows / Fairfield County

Mr. Hickman:

This letter is written regarding storm water inspection I conducted on June 28, 2012, of the construction activities at Misty Meadows, located in Fairfield County. I understand this site is currently covered under the General Storm Water Permit Associated with Construction Activities. Based on my site inspection and the conditions set forth in the General Permit, the following items must be addressed:

Sediment and Erosion Controls:

During the inspection, I noted that there was no active construction at the site. The site was stabilized and you are in compliance with your general permit. Please be aware that there were a few small areas that may need to be re-seeded in the fall.

If you have any questions regarding this letter or my inspection, please do not hesitate to call me at our Central District Office at (614) 728-3851.

Sincerely,

Gregory L. Sanders
Environmental Specialist
