**Re: Construction Storm Water Inspection at Ohio Soil Recycling
Franklin County
Permit Number: 4GC03436*AG**

Dear Mr. Elliott:

This letter is written regarding a storm water inspection I conducted at Ohio Soil Recycling located at 2101 Integrity Drive Columbus, Ohio on July 28, 2012. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, I noted the following issues at this site:

Sediment and Erosion Control:

- Please continue with the poi-shell application for all contaminated piles.
- All uncontaminated piles must be addressed with temporary cover in the event they remain idle in excess of 21 days.

Relocation of Operations to Treatment Pad:

- Your letter dated December 12, 2011 indicated all contaminated soils would be relocated within 30-45 days and the treatment pad would be completed within 4 to 6 weeks. I understand the proposed time frame may be altered due to weather conditions; however it appears this process is not completed. Please resume.

Monitoring and Permitting

- At this time I am formally requesting a meeting to discuss current permitting at this site. Please contact me upon receipt of this letter to schedule a joint meeting.

If you have any questions regarding this letter or the inspection, please do not hesitate to call me at our Central District Office at (614) 728-3844 or email at harry.kallipolitis@epa.state.oh.us. In addition, please provide me with a written response to action items addresses in this letter within 10 days of receipt.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
