**Re: Storm Water Inspection at Morse Road Eco-Station
Franklin County
Permit Number: 4GC03711*AG**

Dear Mr. Basagill:

This letter is written in follow up to a construction storm water inspection by Abigail Tamkin and Elizabeth Pleta of the Ohio EPA with Tom Andry of Thomas and Marker Construction at Morse Road Eco-Station located at 4260 Morse Road on July 2, 2012. The purpose of the inspection was to evaluate compliance with Ohio EPA's General Storm Water Permit Associated with Construction Activities. During the inspection, we noted the following:

- The sediment pond appeared to be in good working order and the riser appeared to be functioning as intended.
- There is a pipe by the east entrance whose function is unknown. During the inspection, Tom Andry stated that he is in the process of investigating the intended purpose.
- Two designated concrete washout areas were noted, one on the northeast corner of the site, and one on the southwest corner.
- During the inspection, the issue of winter use of Dandy Bags for curbside inlet protections on Morse Road was discussed due to the hazard introduced by the ponded water freezing. Understanding the issue, please demonstrate an appropriate alternative for the existing curbside inlet protections.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844. Follow up inspections will be conducted to ensure the conditions of the General Permit are continuing to be met.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
Division of Surface Water
