Dear Mr. Conley:

On June 18, 2012, I met onsite with Delmas Conley (owner) of Conley River Terminal to discuss various issues concerning long term solutions for managing the salt pile properly. Please submit to me a letter outlining how your company plans to operate the facility within the requirements of the Ohio EPA and the hardships your company is presented with in doing this action. Please also outline the involvement of the salt suppliers in your operational concerns and the negative effect they have on your control of covering the salt piles in a timely manner.

If you have recently submitted a letter addressing the concerns listed above please disregard this letter.

If there are any questions, please contact me at (740) 380-5277.

Sincerely,

Aaron Wolfe
