Re: Graham Electric / Franklin County

Dear Mr. Graham:

This letter is written in follow-up to a construction storm water inspection I conducted on July 12, 2012, at Graham Electric located at 3643 Banwick Road, in Columbus, Ohio. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, we noted the following:

Sediment Controls and Maintenance:

- There did not appear to be any construction at the site as of the inspection date. There were no barren areas at the site. Please follow your storm water pollution prevention plan once construction starts at the site.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3851.

Sincerely,

Gregory L. Sanders
Environmental Specialist
Division of Surface Water
Central District Office
