Mr. Carl Trotter  
General Electric Aircraft Engines  
1200 Jaybird Road  
Peebles, Ohio 45660

Dear Mr. Trotter:

On July 16, 2012, I visited the site located on 1200 Jaybird Road in Peebles, Ohio that has a construction storm water permit with the Ohio EPA. The purpose of my inspection was to determine the compliance of this site with the National Pollutant Discharge Elimination System (NPDES) permit for discharges of storm water associated with construction activity. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111.

As a reminder, violators of ORC 6111 may be fined up to \$10,000 per day of violation. In addition, federal law allows for third party lawsuits for failure to comply with terms and conditions of NPDES permits.

**No violations of the terms and conditions of the permit were discovered. The construction project had not begun. Please implement permit requirements as soon as construction starts.**

As a reminder, if your project disturbs more than five acres you are required to implement post construction water quality volume storage requirements with permanent storm water management structures as required by the permit.

If there are any questions, please contact Aaron Wolfe at (740) 380-5277 or me at (740) 380-5447.

Sincerely,

Sara Peters
