Re: Athens County
Village of Albany
Storm Water Construction Activity
Permit 0GC01760*AG

Mr. Tim Kirkendall
Village of Albany
P.O. Box 153
Albany, Ohio 45710

Dear Mr. Kirkendall:

On July 3, 2012, I visited your village which has a construction storm water permit with the Ohio EPA. The purpose of my inspection was to determine the compliance of this site with the National Pollutant Discharge Elimination System (NPDES) permit for discharges of storm water associated with construction activity. The inspection was conducted under the provisions of Ohio's water pollution control statues, Ohio Revised Code (ORC) Chapter 6111.

No violations of the terms and conditions of the permit were discovered and work had not yet begun.

As a reminder, if your project disturbs more than five acres you are required to implement post construction water quality volume storage requirements with permanent storm water management structures as required by the permit.

If there are any questions, please contact Aaron Wolfe at (740) 380-5277 or me at (740) 380-5447.

Sincerely,

Joe Cook
