Mr. Jim Ludwig  
AEP, Ohio Power Co.  
1 Riverside Plaza  
Columbus, Ohio 43215

Dear Mr. Ludwig:

On July 6, 2012, I visited the site located on 1501 Sparling Road in Waterford, Ohio that has a construction storm water permit with the Ohio EPA. The purpose of my inspection was to determine the compliance of this site with the National Pollutant Discharge Elimination System (NPDES) permit for discharges of storm water associated with construction activity. The inspection was conducted under the provisions of Ohio's water pollution control statues, Ohio Revised Code (ORC) Chapter 6111.

**No violations of the terms and conditions of the permit were discovered due to construction having not begun. When construction begins please implement permit requirements immediately and as construction continues.**

As a reminder, if your project disturbs more than five acres you are required to implement post construction water quality volume storage requirements with permanent storm water management structures as required by the permit.

If there are any questions, please contact Aaron Wolfe at (740) 380-5277 or me at (740) 380-5447.

Sincerely,

Joe Cook  
Storm Water Section  
Division of Surface Water
