Re: Monroe County
Skyvue Elementary WWTP
Storm Water Construction Activity
OGC01678*AG

Mr. Marc Ring
Switzerland of Ohio Local School District
304 Mill Street
Woodsfield, Ohio 43793

Dear Mr. Ring:

On July 19, 2012, I visited the site located on 33329 Hartshorn Ridge Road located in Graysville, Ohio that has a construction storm water permit with the Ohio EPA. The purpose of my inspection was to determine the compliance of this site with the National Pollutant Discharge Elimination System (NPDES) permit for discharges of storm water associated with construction activity. The inspection was conducted under the provisions of Ohio's water pollution control statues, Ohio Revised Code (ORC) Chapter 6111.

Construction has not begun. Please be sure to implement all storm water controls during and after construction.

As a reminder, if your project disturbs more than five acres you are required to implement post construction water quality volume storage requirements with permanent storm water management structures as required by the permit.

If there are any questions, please contact Aaron Wolfe at (740) 380-5277 or me at (740) 380-5447.

Sincerely,

Sara Peters
Storm Water Section
Division of Surface Water
