P.O. Box 3356  
Toledo, Ohio 43607

Dear Messrs. Moellenberg and Robarge:

On July 31, 2012, I inspected the New Athletic Facility at 8033 Angola Road, Springfield Township. The purpose of my visit was to evaluate compliance of the site with the National Pollutant Discharge Elimination System (NPDES) permit for storm water discharges associated with construction activity, Facility ID No. 2GC02093. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111.

It appears that construction activities at the New Athletic Facility are complete. Several ball diamonds, soccer fields, and parking lots seemed finished. Grass has been established. It appeared that extended detention basins had been installed to meet the post construction requirements of the permit.

A Notice of Termination (NOT) must be filed to relieve you of the obligation to comply with this general permit. An NOT may be filed if one or more of the following conditions have been met:

- Final stabilization has been established on all areas of the site for which the permittee is responsible. Final stabilization means that all soil disturbing activities at the site are complete and a uniform perennial vegetative cover of at least 70% density has been established over the entire site. All temporary erosion and sediment control measures have been removed, properly disposed of, and all trapped sediment has been permanently stabilized; or

Messrs. Moellenberg and Robarge

Page Two

- Another operator(s) has assumed control over all areas of the site that have not been fully stabilized.

It appears that the project may have met these conditions. If this is true and the post construction storm water management practices required by the permit have been installed, please file the NOT form. The NOT form and instructions can be found on our website: <http://www.epa.ohio.gov/dsw/storm/stormform.aspx>. NOTs must be mailed to Ohio EPA's Central Office within 45 days of when the above criteria are met.

If there are any questions, please contact Ms. Lynette Hablitzel at 419-373-3009.

Sincerely,

Bernard E. Weik
