North Bridge Street Development
808 Eastern Avenue
Chillicothe, Ohio 45601

Dear Mr. and Mrs. Scott:

On August 10, 2012, I visited the site located on North Bridge Street (Across from Tractor Street) in Chillicothe, Ohio that has a construction storm water permit with the Ohio EPA. The purpose of my inspection was to determine the compliance of this site with the National Pollutant Discharge Elimination System (NPDES) permit for discharges of storm water associated with construction activity. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111.

No violations of the terms and conditions of the permit were discovered. Please continue to implement permit requirements as construction continues.

As a reminder, if your project disturbs more than five acres you are required to implement post construction water quality volume storage requirements with permanent storm water management structures as required by the permit.

If there are any questions, please contact me at (740) 380-5277.

Sincerely,

Aaron Wolfe
