P.O. Box 246
New Knoxville, Ohio 45871

Dear Mr. Katterheinrich:

We are in receipt of your self-monitoring reports covering the months of April through June 2012 for the above referenced facilities. Our review indicates violations of the conditions of your National Pollutant Discharge Elimination System (NPDES) permit. The specific instances of non-compliance are enclosed on a separate sheet.

Within 10 days of the date of this letter, please inform this office in writing as to the reasons for the above referenced violations, as well as a description of the actions taken or proposed to prevent any further violations. Your response should include the dates, either actual or proposed, for completion of the actions.

Please be advised that failure to comply with the effluent limitations and/or monitoring requirements, including adequate laboratory controls, appropriate quality assurance procedures, and records retention, as specified in your Part III-General conditions of your NPDES permit may be cause for enforcement action pursuant to Ohio Revised Code, Chapter 6111. If these violations continue to occur and if satisfactory progress is not made, it may be necessary to initiate enforcement action to achieve compliance.

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction). For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner. You can benefit economically, help preserve the environment, and improve your public image by implementing pollution prevention programs. Information about Ohio EPA's Office of Compliance Assistance & Pollution Prevention can be found on Ohio EPA's Website at <http://epa.ohio.gov/ocapp> or by calling (614) 644 – 3469.

If you have any questions, please contact me at (419) 373 – 3022.

Sincerely,
