Dear Mr. Rhyne:

This will acknowledge our August 29, 2012, compliance inspection at your Marion facility. This facility is located at 1550 Marion-Agosta Road, Marion, Ohio. This inspection was conducted to evaluate compliance with your facility's National Pollutant Discharge Elimination System (NPDES) permit No. 2II00104 (OH0126594).

At the time of the inspection, the oil skimmer was in operation. This facility was closed for business and the building was being demolished. The oil/water separation process appears to be working and no oil sheen was noted on the pond. When a discharge occurs from the pond, it must be sampled in accordance with this NPDES permit.

Our review of your discharge monitoring reports (1/1/2011 to 8/1/2012) for this facility indicated one effluent violation. Please refer to the enclosed violation table. Our completed inspection form is enclosed for your review. Should you have any questions, please contact me at 419-373-3021.

Sincerely,

Jason Ko
Division of Surface Water
