**Re: Storm Water Inspection Concerning Sediment Erosion Controls Associated with  
Fill Site—Permit #: 4GCO00070\*AG**

Dear Mr. Hopfinger:

This letter is written regarding the storm water inspection I conducted at your fill site located at US Route 23 and Grief Brothers Parkway in Delaware County on August, 21, 2012. The Agency understands these construction activities are currently covered under the General Storm Water Permit Associated with Construction Activities. Based on the site inspection and the General Storm Water Permit, the following items must be addressed:

**Sediment Erosion Controls:**

- I noted the recent grading activities to ensure stabilization of the entire site per my last storm water inspection.
- Corrective measures are expected to seed and mulch this area in preparation for the upcoming winter months.
- The perimeter controls have been eliminated or damaged beyond repair associated with these grading activities. Corrective measures are expected to reinstall the perimeter controls within 3 days of receipt of this inspection.

If you have any questions regarding this letter or the inspection, please do not hesitate to call me at our Central District Office at (614) 728-3844 or email at [harry.kallipolitis@epa.state.oh.us](mailto:harry.kallipolitis@epa.state.oh.us). In addition, please provide a written response (**email preferred**) to the action items addressed above within ten days from receipt of this letter. A follow up inspection will be conducted to ensure the minimum conditions of the General Permit have been met.

Sincerely,

Harry Kallipolitis  
Storm Water Coordinator  
Ohio EPA, Division of Surface Water  
Central District Office
