**Re: Storm Water Inspections Concerning Dewatering Activities Associated with
Construction West of Morrill Tower-Permit #: 4GC03838*AG**

Dear Mr. Scott:

This letter is written regarding my observation of dewatering activities implemented on the construction site directly west of Morrill Tower. The intent of this inspection was to evaluate dewatering activities to ensure minimal impacts to the Olentangy River.

During the inspection, I walked along the Olentangy River and noted NO turbid discharges resulting from any dewatering activities. Please ensure a dewatering log is established which includes daily, visual observations of the Olentangy River to ensure no violations of ORC6111.04 result.

If you have any question regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844 or email at harry.kallipolitis@epa.state.oh.us. A follow-up inspection will be conducted to ensure the conditions of the General Permit are met.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
Division of Surface Water
Central District Office

HK/nsm West of Morrill Tower 9-2012
