**Re: Storm Water Inspection at PSC Metals Inc. / Franklin County
Permit Number: 4GR00347*DG**

Dear Mr. Kolarsky:

This letter is written in follow-up to our joint meeting and inspection at PSC Metals Inc. located at 2205 Parsons Ave., Columbus, Ohio on September 6, 2012. The meeting was at the request of Andy Pfeiffer with PSC, to evaluate potential monitoring locations to ensure compliance with Ohio EPA Multi-Sector General Permit (MSGP). I understand this site is covered under the existing permit 4GR00347*DG.

This letter is also written in follow up to an inspection I conducted in September of 2011. During the inspection I addressed operations and improvement opportunities with respect towards compliance with Ohio EPA General Storm Water Permit. During the inspection we jointly reviewed the 2011 inspection letter.

Concurrent with the inspection Mr. Pfeiffer and I mutually agreed on a sampling location for monitoring purposes as required under the MSGP permit. Please resubmit the NOI application with the longitude and latitude of the storm sewer outfall to complete the application process.

Following my site inspection I met with you discuss time frames necessary to remedy the corrective measures identified in the September 2011 inspection letter. Following our discussions we mutually agreed that a 60 day time frame is adequate to implement the best management practices associated with site grading and vehicle break down.

At this time I am formally requesting a response to this letter within seven days of receipt.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
Division of Surface Water
Central District Office

c: Andy Pfeiffer
