Zanesville, Ohio 43701

Dear Mr. Gity:

On August 10, 2012, I conducted a Reconnaissance Inspection at Gity's Banquet Hall located in Nashport, Ohio. The purpose of the inspection was to determine Gity's compliance with NPDES Permit Number 0GV00017*AG and the Ohio Water Pollution Control Act, Revised Code Chapter 6111.

As a result of the inspection and review of our files, I have the following comments:

The General Permit has expired and has not been renewed. Discharging without a valid permit is a violation of Ohio Revised Code 6111. If you plan on discharging from this facility in the future, a current permit is required. If not, submit a Notice of Termination form, which is enclosed, to this office.

Please provide a response to this letter within the next 30 days after receipt of the letter.

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction). For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner. You can benefit economically, help preserve the environment, and improve your public image by implementing pollution

prevention programs. For more information about pollution prevention, including fact sheets and U.S. EPA's Facility Pollution Prevention Guide, (EPA/600/R-92/088), you may contact the Ohio EPA Pollution Prevention Section at (614) 644-3469 or me at (740) 380-5227 for additional information.
