Mr. A R Crawford
Stradford Rental
5587 Outville Road, SW
Pataskala, Ohio 43062

Dear Mr. Crawford:

On August 10, 2012, I conducted a reconnaissance inspection at Glenvue located in New Concord, Ohio. The purpose of the inspection was to determine Glenvue's compliance with NPDES Permit Number 0GV00029*AG and the Ohio Water Pollution Control Act, Revised Code Chapter 6111.

As a result of the inspection and review of our files, I have the following comments:

1. **The General Permit has expired and has not been renewed. Discharging without a valid permit is a violation of Ohio Revised Code 6111. If you plan on discharging from this facility in the future, a current permit is required.**
2. **The sand filters at the treatment plant were overgrown with weeds. Regular maintenance should be performed to maintain proper operation of the treatment plant. This can be found in Section K. of your General Permit.**
3. **There were no chlorine or dechlorination tablets in the feeder tubes at the effluent. Part IV, Section G of your permit does not directly require effluent disinfection but you are required to meet all applicable permit limits.**
4. **The plant was not operating at the time of the inspection and was discharging untreated sewage. Part V, Section A, Items 1 and 2 states that you must comply with all conditions of the permit or face enforcement action by the Ohio EPA as stated in Ohio Revised Code Chapter 6111.**

Please provide a **response** to this letter within the next **30 days**. **If we do not hear from you, we will initiate enforcement proceedings.** As long as your permit remains active, you are required to sample and report those results to the Ohio EPA.

The Ohio EPA strongly encourages pollution prevention as the preferred approach for waste management. The first priority of pollution prevention is to eliminate the generation of wastes and pollutants at the source (source reduction). For those wastes or pollutants that are generated, the second priority is to recycle or reuse them in an environmentally sound manner. You can benefit economically, help preserve the environment, and improve your public image by implementing pollution prevention programs. For more information about pollution prevention, including fact sheets and U.S. EPA's Facility Pollution Prevention Guide, (EPA/600/R-92/088), you may contact the Ohio EPA Pollution Prevention Section at (614) 644-3469 or me at 740-380-5227 for additional information.

Sincerely,
