**Re: Storm Water Inspection at Greyhound Bus Lines Inc. / Franklin County
Permit # 4GR00610*DG**

Dear Mr. Fields:

This letter is written in follow up to preliminary industrial storm water inspection I conducted at the Greyhounds Bus Lines located in Columbus, Ohio off Fourth Street in the downtown area on September 20, 2012. Based on my inspection and the mandates of the General Permit the following items were noted:

Permitting Requirements

- This site has recently renewed coverage under the Multi-Sector General Storm Water Permit. Please be advised the Storm Water Pollution Prevention Plan must be updated in accordance with the specific sector requirements of this permit.

Storm Water Pollution Prevention Plan

- The SWPPP must be updated within 180 days from receipt of this letter to ensure continued compliance with your General Storm Water Permit.

Site Operations

- During the inspection I noted what appeared to be fueling associated with operations at this terminal. Please note that Best Management Practices are expected in association with all fueling and maintenance activities at this site. In the event fueling and maintenance activities discontinue the site may be reevaluated for No Exposure Exemption (NOE). Please refer to the following links for assistance: http://www.epa.ohio.gov/dsw/storm/index.aspx#no_exposure_certification

If you have any question regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844 or email at harry.kallipolitis@epa.state.oh.us. A follow up inspection will be conducted to ensure the conditions of the General Permit are met.

Sincerely,

Harry Kallipolitis
