**RE: Storm Water Inspection at Property Owned by Ed Nelson / Licking County  
Permit #4GC03911\*AG**

Dear Mr. Nelson:

This letter is written regarding the storm water inspection I conducted at Property Owned by Ed Nelson on Ted Conner Avenue (PID 063-150150-00.000) in Pataskala, Ohio on September 26, 2012. The Agency understands these construction activities are currently covered under the General Storm Water Permit Associated with Construction Activities. Based on the site inspection and the General Storm Water Permit, the following items must be addressed:

**Sediment and Erosion Controls:**

- During the inspection I was unable to access the construction site. At this time I am formally requesting an onsite meeting to ensure the minimum criteria of the storm water permit is met. Please contact me at your earliest convenience to schedule a full construct storm water inspection. Please understand all sediment and erosion controls will be evaluated concurrent with this inspection.

**401/44 Permitting:**

- During the upcoming inspection I will evaluate any fill materials which have been or proposed to be placed within waters of the state; this includes wetlands, streams, and drain ways that fall within the jurisdictional criteria set forth under the Clean Water Act.

If you have questions concerning the inspection or my letter please do not hesitate to contact me at our Central District Office.

Sincerely,

Harry Kallipolitis  
Storm Water Coordinator  
Ohio EPA, Division of Surface Water  
Central District Office
