NPDES Permit Violations**

Dear Mr. Krytus:

We have reviewed your Discharge Monitoring Reports (DMRs) covering the month of August 2012 for the referenced facility. Our review indicates violations of the conditions of your NPDES permit (NPDES Permit No. OH0127469; OEPA Permit No. 1PR00109*CD). The specific instances of noncompliance and deficiencies were as follows:

Effluent Violations for August 2012

Reporting Period	Parameter	Limit Type	Units	Permit Limit	Reported Value
August 2012	Ammonia	Monthly	mg/l	1.0	1.1
August 2012	CBOD5	Monthly	mg/l	10	12

In addition, an annual sludge disposal report is required to be submitted by January 31 of each following year. This requirement is addressed in Part II, Section L of the NPDES permit. The 2011 annual sludge disposal report has not been submitted as required by the NPDES permit. This report must be submitted at this time.

Finally, a Compliance Evaluation Inspection report dated October 13, 2011, and a Notice of Violation letter dated August 2, 2012, required a response. These responses have not been submitted as required. Please address the areas addressed in these letters.

Future violations must be reported as required by the NPDES permit as detailed in Part III.12 titled "Noncompliance Notification."
