Re: Brooks Edge Phase II & III / Madison County

Dear Mr. Duvall:

This letter is written in follow-up to a construction storm water inspection that I conducted on October 19, 2012, at Brooks Edge, Phase II & III, located along Garfield Avenue, in London, Ohio. There was no active construction during my inspection. The purpose of the inspection was to ensure continued compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, I noted the following:

Sediment and Erosion Controls:

- There was no active construction at the site and most all barren areas were stabilized. No erosion was leaving the site. There were a few small barren areas that may need to be re-seeded in the spring.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3851.

Sincerely,

Gregory L. Sanders
Environmental Specialist
Division of Surface Water
