Re: Centerpoint Building 5 / Franklin County

Dear Mr. Kaiser:

This letter is written regarding the storm water inspection I conducted on October 18, 2012, of the construction site at the Centerpoint Building 5 development, located along Toy Road, in Franklin County. I understand this site is currently covered under the General Storm Water Permit Associated with Construction Activities. Based on my site inspection and the conditions set forth in the General Permit, the following items must be addressed:

Sediment and Erosion Controls:

During the site visit, it was noted that there was recent clearing and grubbing activities. Please install and maintain perimeter silt fencing or another alternative method for erosion control.

If you have any questions regarding this letter or my inspection, please do not hesitate to call me at our Central District Office at (614) 728-3851.

Sincerely,

Gregory L. Sanders
Environmental Specialist
Division of Surface Water
Central District Office
