Mr. Alex Parsons
1077 George Blvd.
Akron, Ohio 44309

Dear Mr. Parsons:

On October 23, 2012, I conducted an inspection of your facility. The inspection was conducted under the provisions of Ohio's water pollution control statutes, Ohio Revised Code (ORC) Chapter 6111. As a result of the inspection, I have the following comment:

Your facility appeared to be in compliance with permit conditions in the General Industrial Storm Water Permit that has been issued to you by the Ohio EPA. Please continue to implement permit requirements in the future.

Although it was not a violation, I did note that the oil and antifreeze barrels were not located on a spill pallet. In an effort to minimize risk and potential storm water violations in the future I recommend that you place a spill pallet under these barrels.

If you have any questions, please contact me at (740) 380-5277.

Sincerely,

A handwritten signature in black ink, appearing to read 'Aaron Wolfe', with a long horizontal flourish extending to the right.

Aaron Wolfe
Storm Water Coordinator
Division of Surface Water
