Re: **Notice of Violation**
Erie County
Island Venture
Ohio EPA Permit No.2PR00242*BD

December 27, 2012

Mr. Ray Bauman
Muirwood Village
101 Lands Rush
Sandusky, Ohio 44870

Dear Mr. Bauman:

A review of the self-monitoring reports that are submitted under the National Permit Discharge Elimination System (NPDES) permit for The Island Venture wastewater treatment plant (WWTP) shows that this facility is in significant non-compliance (SNC) for Nitrogen, Ammonia at final outfall Number 001. I am enclosing a list of violations for this facility for the period of January 1, 2012, through November 30, 2012.

A facility becomes SNC when it exceeds the effluent limit for four or more months in two consecutive quarters or exceeds the effluent limit significantly in any two months in two consecutive quarters. Achieving compliance with Ohio's environmental laws is a primary focus of Ohio EPA in order to reduce risks to public health and welfare.

Before we initiate enforcement action, we would like to work with you to achieve satisfactory progress to bring this facility back into compliance. Within 21 days of the date of this letter, please submit, in writing, the actions that you propose to undertake in order to return your facility into compliance with your NPDES permit. You will also need to provide us a timetable to implement these actions within a reasonable timeframe. These actions and timetable may also be submitted by email to me at rick.zuzik@epa.ohio.gov.

If you wish to meet with us to discuss this matter, please contact me at 419-373-3020 within 10 days of receiving this letter in order to set up a meeting.

Sincerely,

Richard A. Zuzik, MSE
Division of Surface Water
