Dear Mayor and Council:

We have received your self-monitoring reports covering the months of January through November 2012 for the referenced facility. Our review indicates a violation of the conditions of your NPDES permit. The specific instances of noncompliance and/or deficiencies are as follows:

Station	Parameter	Limit Type	Limit	Reported Value	Violation Date
June 2012:					
002	Nitrogen, Ammonia (NH3)	30D Conc	2	4.5	6/1/2012

Notes: 1D Conc = Daily Average Concentration Value
1D Qty = Daily Average Loading Value
7D Conc = Weekly Average Concentration Value
30D Conc = Monthly Average Concentration Value
7D Qty = Weekly Average Loading Value
30D Qty = Monthly Average Loading Value

Please be advised that failure to comply with the effluent limitations or to satisfy the monitoring or reporting requirements of your NPDES permit may be cause for enforcement action pursuant to the Ohio Revised Code Chapter 6111.

Also, you are reminded that you are required to report any non-compliance that is the result of any violation of a daily maximum discharge limit or due to an upset or unanticipated bypass that results in an exceedance of any effluent limitation within 24 hours of discovery by email or telephone, with a written follow-up notice within 5 days. Report all other instances of NPDES permit non-compliance on your Discharge Monitoring Report.

If you have not already done so, please inform this office, in writing, within ten days of receipt of this notification, as to the reasons for the above-referenced violations, as well as a description of the actions taken or proposed to prevent any further violations. Your response should include the dates, either actual or proposed, for completion of the actions.
