**Re: Pre-Construction Storm Water Inspection at Interstate 70 and State Route 158 Interchange Permit # 4GC03667\*AG**

Dear Mr. Babieh:

This letter is written regarding a storm water inspection I conducted at **Interstate 70 and State Route 158 Interchange** located at Licking County on December 20, 2012. This site is currently covered under the General Construction Storm Water Permit. The following items were noted:

**Sediment and Erosion Controls:**

- All affected areas were properly stabilized in preparation for the winter months
- All sediment ponds/traps maintained
- All perimeter and inlet controls also appear well maintained with the exception of minor maintenance to the east bound off ramps.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844. Follow up inspections will be conducted to ensure the conditions of the General Permit are continuing to be met.

Sincerely,

Harry Kallipolitis  
Storm Water Coordinator  
Division of Surface Water  
Central District Office
