Re: Marion County
Star Lanes
NPDES Permit

January 23, 2013

Mr. Cass Sisler
Star Lanes
3599 Gooding Road
Marion, Ohio 43302

Dear Mr. Sisler:

This will acknowledge our January 9, 2013, compliance inspection at your facility. This facility is located on the east side of Marion-Marysville Road. This inspection was conducted to evaluate compliance with your facility's National Pollutant Discharge Elimination System (NPDES) permit No. 2PR00194*AD.

At the time of the inspection, this facility was still closed for business and the sewage treatment system was shut down. Please note that your existing NPDES permit expired on August 31, 2008. Because there is no activity at this site and you have failed to renew your permit, we will recommend that the Director remove your permit from active status. If you plan to reopen this business in the future and/or request authorization to discharge again, you MUST submit an NPDES permit application to our office prior to reopening.

If you have any questions or comments, please call me at 419-373-3021.

Sincerely,

Jason Ko
Division of Surface Water
