Dear Sir or Madam:

On January 11, 2013 I conducted an inspection of the Laurelville wastewater treatment lagoons. The purpose of the inspection was to determine the facility's compliance status with the terms and conditions of NPDES permit number OPA00013*FD. A copy of the inspection report is attached.

As a result of the inspection and review of our files, I found no apparent violations other than Ammonia, which is a problem with sewage treatment lagoons when the temperatures are low. The Village of Laurelville should continue to make every effort to maintain compliance with its NPDES permit.

If there are any questions, please call me at (740) 380-5268.

Sincerely,
