Dear Ms. Schade:

It has come to our attention that Summit C&D Disposal located at 1947 Wadsworth Road, Norton, Summit County has violated Part I, C, Compliance Schedule, Section A.1. Specifically:

*"1. The permittee shall evaluate the ability of its Best Management Practices Plan to meet the final effluent limit for Total Suspended Solids at outfall 31100204001 and any other point source discharges of sediment laden water from active construction areas of the landfill site. Within 6 months from the effective date of this permit, the permittee shall submit in writing a summary of a study to the Northeast District Office of the Ohio EPA to determine whether or not the final limits for Total Suspended Solids can be met."*

At this time we have not received the aforementioned study. We request that you submit this information no later than February 11, 2013 or provide an explanation as to why it has not been done.

If you should have any questions concerning this letter or in completing any of the above applications, feel free to contact this writer at (330) 963-1136 or by e-mail at [phil.rhodes@epa.state.oh.us](mailto:phil.rhodes@epa.state.oh.us).

Sincerely,
