Re: Wood County
Techneglas, Inc.
Industrial Storm Water

February 12, 2013

Mr. William Blessing
Product Manager
Techneglas, Inc.
2100 North Wilkinson Way
Perrysburg, Ohio 43551

Dear Mr. Blessing:

On January 16, 2013, a storm water compliance inspection was made of the Techneglas, Inc. facility located at 2100 Wilkinson Way in the City of Perrysburg, Wood County, to determine compliance with the National Pollutant Discharge Elimination System (NPDES) General Permit for Storm Water Associated with Industrial Activity (IGP).

A Notice of No Exposure (NOE) has been received by Ohio EPA for this facility. An NOE may be submitted when a facility with industrial materials and activities are entirely sheltered from rain, snow, snowmelt and/or runoff. Industrial materials or activities include, but are not limited to, material handling equipment or activities, industrial machinery, raw materials, intermediate products, by-products, final products or waste products.

A tour of the grounds outside of this facility showed that all waste is stored in enclosed or sheltered areas. No machinery, equipment, products, or waste are stored outside. The grounds are clean and well maintained.

If you have any questions, you may contact me at (419) 373-3016 or by e-mail at patricia.tebbe@epa.ohio.gov.

Sincerely,

Patricia A. Tebbe, P.E.
Division of Surface Water
