Re: Speedway #1204, Franklin County

Dear Mr. Bibler:

This letter is written regarding the storm water inspection that I conducted on September 17, 2012, at Speedway #1204 located at 6399 Refugee Road, Columbus, Ohio. It appears that the construction activity at this site is nearly complete. Based on the site inspection and the General Storm Water Permit, the following items must be addressed under the storm water permit.

Post Construction Requirements:

It appears that construction for this site is complete. The barren areas have been stabilized with seed and a tackifier.

The General Permit mandates specific water quality treatment for storm water following the completion of construction. Please be able to demonstrate your post construction requirements per the General Permit will be met. Please submit to my attention the water quality calculations demonstrating compliance. This information can be sent to my attention via a response letter, or to my email at greg.sanders@epa.state.oh.us.

If you have not already done so, a Notice of Termination (NOT) will be required providing that the post construction requirements have been met. Instructions and forms can be found at <http://epa.ohio.gov/dsw/storm/index.aspx>.

If you have any questions regarding this letter or my inspection, please do not hesitate to call me at our Central District Office at (614) 728-3851.

Sincerely,

Gregory L. Sanders
