Dear Mr. Bauman:

On February 6, 2013, Jennifer Witte, of the Division of Surface Water, and I conducted a reconnaissance inspection at the Belmont Hills Country Club Treatment Facility. The purpose of the inspection was to determine the facility's compliance status with the terms and conditions of NPDES permit number 0GU00042\*BG and to determine if the permit is still warranted. A copy of the inspection report is attached.

A review of your Discharge Monitoring Reports (DMRs) reveals reports were not submitted for February and March 2012. Please complete these forms and submit them no later than March 15, 2013.

It appeared that the remediation unit is no longer present and no discharge to the waters of the state is currently occurring. If the facility will not be discharging any further treated groundwater, then the NPDES permit is no longer needed. I have included a copy of the Notice of Termination (NOT), an electronic version of this form can be found here: [www.epa.ohio.gov/dsw/permits/gpfact.aspx](http://www.epa.ohio.gov/dsw/permits/gpfact.aspx). I have also included the NOT application instructions.

Please respond to this letter no later than March 15, 2013. If you have any questions, please contact me at (740) 380-5416 or [nick.hammer@epa.ohio.gov](mailto:nick.hammer@epa.ohio.gov).
