**Re: Villages at Winchester, Section 11 / Franklin County
Permit Number: 4GC03276*AG**

Dear Mr. Francis:

This letter is written in follow-up to a construction storm water inspection that I conducted on March 4, 2013, at the Villages of Winchester, Sec. 11, located near the intersection of Conner Avenue and Patch Drive, in Canal Winchester, Ohio. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit associated with Construction Activities. During the inspection, I noted the following:

Sediment and Erosion Control:

- There was no active construction at the site. Most all barren areas were stabilized except for a few small dirt stockpiles located near Guiller Court and Conner Avenue. No erosion was leaving the site.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3851.

Sincerely,

Gregory L. Sanders
Environmental Specialist
Division of Surface Water
Central District Office
