Re: ToxCo Inc., Fairfield County

To Whom it may concern:

This letter is written regarding a storm water inspection that I conducted on August 31, 2012, at the ToxCo Inc. project located at 265 Quarry Road, in Lancaster, Ohio. Ohio EPA has received and approved this site for coverage under the General Storm Water Permit associated with Construction Activities. Ohio EPA's Storm Water Staff will be conducting future storm water inspections to ensure compliance with the General Permit. During the inspection, I noted the following:

Sediment and Erosion Controls:

- There was active construction at the site. Erosion controls were in place to prevent sediment from discharging off-site. No erosion was leaving the site.
- Most barren areas had been stabilized. Once construction is completed, please stabilize all barren areas.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3851.

Sincerely,

Gregory L. Sanders
