RE: CUYAHOGA COUNTY
 CITY OF OLMSTED FALLS
 7305 RIVER ROAD
 NPDES PERMIT NO. OHV000002
 OHIO EPA PERMIT NO. 3GV00041

Joe Lair
 7305 River Road
 Olmsted Falls, Ohio 44138

Dear Mr. Lair:

On February 5, 2013, an inspection was conducted at the above referenced address by the undersigned. The inspection was prompted by the facility's failure to meet the following "Compliance Schedule" requirement contained in the National Pollutant Discharge Elimination System (NPDES) general permit:

Schedule Type	Schedule Milestone	Due Date
Construction	Submit PTI Application and Detailed Plans to Ohio EPA	12/1/2012 (*)

(*) **Deadlines not achieved.**

At the time of the inspection, it was documented that a significant amount of treatment system construction has been completed before the receipt of a formal Permit to Install (PTI) application detailed engineering plans. Installation of a wastewater disposal system without an approved PTI from the Director of Ohio EPA is a violation of Ohio Revised Code (ORC) 6111.44 and Ohio Administrative Code (OAC) 3745-42.

As discussed with you, continued construction of the treatment system must cease until a PTI application is submitted by a Professional Engineer and approved by the Director.

Based on the above information, you are considered to be in **significant noncompliance** with the terms and conditions of the NPDES permit and, therefore, subject to enforcement actions pursuant to ORC Chapter 6111. Such actions can result in fines as authorized under ORC 6111.

Please inform this office, in writing, as to the actions that will be immediately taken to resolve this matter. Your response should include the dates that the actions will be initiated and completed. Please be advised that past or present issues of noncompliance can continue as subjects of future enforcement actions by Ohio EPA.

Should you have any questions or comments regarding this letter, please contact this office.

Respectfully,

Handwritten signature of Ermelindo Gomes in cursive.
