**Re: Winchester Bend, Franklin County**

Dear Mr. Fulkert:

This letter is written regarding the storm water inspection that I conducted on August 24, 2012, at Winchester Bend located near the intersection of Winchester Pike and Hamilton Road, in Columbus, Ohio. I understand that these construction activities are currently covered under the General Storm Water Permit Associated with Construction Activities. Based on my site inspection and the General Storm Water Permit, the following items must be addressed.

**Sediment and Erosion Controls:**

1. Construction appears to be complete for this site.
2. Most all of the site was stabilized except for two areas at the site that was at final grade and needed to be stabilized. One area was around the centralized storm water pond and the other area was near Big Walnut Creek. Please stabilize all barren areas at final grade. Please see attached pictures.

If you have any questions regarding this letter or my inspection, please do not hesitate to call me at our Central District Office at (614) 728-3851.

Sincerely,

Gregory L. Sanders  
Environmental Specialist  
Division of Surface Water  
Central District Office
