**Re: CJ Mahan Construction Company, Franklin County
No Exposure Exemption #4C-N0001*LG**

Dear Ms. Matheny:

This letter is written in regard to the storm water inspection that I conducted on March 19, 2013, at CJ Mahan Construction, located at 3400 Southwest Boulevard, in Grove City, Ohio. The inspection was conducted to determine compliance with your No-Exposure Exemption (NOE), in accordance with Ohio EPA's Storm Water Program. This facility is required to seek storm water permit coverage, from Ohio EPA in accordance with 40 CFR 122.26, authorizing storm water discharges or obtain a NOE. You have submitted and obtained a No-Exposure Exemption for this facility as you claim there are no activities or exposed materials, which pose a threat to storm water. This inspection was conducted to ensure your NOE is valid.

Based on my observations, I noted the following during my inspection:

There were several full or partially full drums stored outside. These drums should be stored in inside a building.

There was very little staining on the pavement at your facility.

There were several waste containers at the site. The waste containers must be covered.

I will conduct a follow-up inspection in approximately 30 days to ensure the drums have been moved inside a building and the waste containers are covered. If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at 614-728-3851.

Sincerely,

Gregory L. Sanders
Environmental Specialist
Division of Surface Water
