**Re: Storm Water Inspection at Port Columbus golf course/ Franklin County
Permit #: 4GC03480*AG**

Dear Mr. Powell:

This letter is written in follow-up to a construction storm water inspection I conducted at Port Columbus golf course located at 900 North Hamilton Road, Columbus, Ohio on August 7, 2012. The purpose of the inspection was to evaluate compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, we noted the following:

Notice of Termination:

- Appears the majority of construction activities have been completed for this site. Aa Notice of Termination will be required once vegetation is established sufficient to control erosion measured by a vegetative density of 70 Percent. Please submit the Notice of Termination when the minimum vegetative requirements are met.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3844. Follow-up inspections will be conducted to ensure the conditions of the General Permit are continuing to be met.

Sincerely,

Harry Kallipolitis
Storm Water Coordinator
