Land Application Management Plan Violations**

Dear Mr. Gabbard:

We have attempted to review your Discharge Monitoring Reports (DMRs) covering the months of December 2012 through March 2013 for the referenced facility. Our review indicates violations of the conditions of your Land Application Management Plan (Ohio Permit #: 1MP00012*AM).

For the noted period, the DMRs were noted as not having been submitted as required by your Land Application Management Plan. Action must be taken to start submitting the DMRs immediately.

Please be advised that failure to satisfy the monitoring or reporting requirements of your Land Application Management Plan may be cause for enforcement action pursuant to the Ohio Revised Code Chapter 6111. The failure to start the required monitoring and reporting of discharge from your treatment system will result in this office recommending that enforcement action be taken.

Please inform this office, in writing, by May 10, 2013, as to the reasons for the above referenced violations, as well as a description of the actions taken or proposed to prevent any further violations. Your response should include the dates, either actual or proposed, for completion of the actions.

If you have any questions regarding the above, please contact me at (937) 285-6096.

Sincerely,

Ned Sarle
