**Re: London Christian Fellowship Church / Madison County  
Construction Storm Water Permit #4GC03872\*AG**

Dear Mr. Weaver:

This letter is written in follow-up to a construction storm water inspection that I conducted on October 19, 2012, at the London Christian Fellowship Church, located at 215 US 42 NE, in London, Ohio. There was active construction during my inspection. The purpose of the inspection was to ensure continued compliance with the General Storm Water Permit Associated with Construction Activities. During the inspection, I noted the following:

**Sediment and Erosion Controls:**

- There was erosion controls installed around the perimeter of the site. Most of the barren areas were stabilized. There were a few small active areas that were still barren. Please stabilize these barren areas once construction is complete.

If you have any questions regarding this letter or the inspection, please do not hesitate to contact me at our Central District Office at (614) 728-3851.

Sincerely,

Gregory L. Sanders  
Environmental Specialist  
Division of Surface Water  
Central District Office
