**Re: Notice of Violation
US Corrugated, Inc. / Fairfield County
Industrial Storm Water Permit 4GR00515*EG**

Dear Mr. Clonch:

This letter is written in regard to the storm water inspection that I conducted on April 30, 2013, at US Corrugated, Inc., located at 1290 Campground Road, in Lancaster, Ohio. The inspection was to follow-up to a previous inspection in which there were violations with your industrial storm water general permit. I wanted to give your company at least sixty days to address the previous violations at your facility. Your facility did not have the issue resolved from the previous visit and some of the issues were worse than the previous inspection. Please consider this a formal notice of violation. The following items were noted during the inspection:

1. Your storm water pollution prevention plan (SWP3) needs to be completed and reviewed annually. A log of the annual review (signature of reviewer and date) must be kept in the SWP3. The SWP3 should have been completed at the time of your application submittal which was February 25, 2012.
2. Please conduct a monthly inspection of your storm water controls and document the inspection in your SWP3. Monthly inspections have not been conducted prior to and since my initial inspection.
3. Your facility still had two uncovered dumpsters on the south side of your property. All waste containers should be covered. Also, better house-keeping is needed around the dumpsters and loading docks. There was a lot of industrial waste located on the ground and pavement around the dumpsters. The dumpsters should be located inside a berm to prevent discharge of the waste material to the storm sewer system. Please see attached pictures.

All issues noted above should be addressed in your SWP3. If you have any questions regarding this letter or my inspection, please do not hesitate to contact me at our Central District Office at 614-728-3851.

Sincerely,

Gregory L. Sanders
